Such notice of withdrawal shall be effective upon receipt of the notice by the OWNER.

The "Notice to Proceed" shall be issued within ten (10) days of the execution of the Agreement by the OWNER. Should there be reasons why the "Notice to Proceed" cannot be issued within such period, the time may be extended by mutual agreement between the OWNER and CONTRACTOR. MATERIALS Materials shall meet the requirements of Article 1095.02 (Paint Pavement Markings) and Art. 1095.09 (Modified Urethane Pavement Markings) of the IDOT Standard Specifications.

SAMPLING AND TESTING Regardless of the quantity of paint, the Contractor shall provide the City notarized certification from the paint and bead manufacturers that the materials to be furnished meet all requirements of the Specification.

INSTALLATION REQUIREMENTS Painted pavement markings and modified urethane pavement markings shall be installed in accordance with the following requirements. See IDOT specifications, Art. 780.

- a.) Prior to the application of the paint, the Contractor shall make certain that the pavement surface is dry.
- b.) Paint shall not be applied at air temperatures below 50 degrees Fahrenheit unless approved by the City.
- c.) The paint shall be applied at a minimum thickness of 16 mils, and beads shall be applied to all painted surfaces at the minimum rate of 6 pounds for each gallon of paint used. Glass beads shall meet the requirements of Article 1095.07.
- d.) On previously unmarked locations, unless directed by the City, lines shall not be laid directly over a longitudinal crack or joint. The edge of a center line or lane line shall be offset a minimum distance of 2 inches from a longitudinal crack or joint. Edge lines shall be approximately 2 inches from the edge of pavement. The finished center and lane lines shall be straight, with the lateral deviation of any 10-foot line not to exceed 1 inch.

EQUIPMENT REQUIREMENTS Equipment used for installing painted pavement markings shall meet the following requirements.

- a. The application equipment used for placing lane and edge lines shall be of sufficient size and stability to insure smooth, straight application. The equipment must have the capability of automatically placing new intermittent line patterns, as well as continuous lines. The equipment shall be so constructed as to provide the various widths of pavement marking lines specified. The mounting shall be such as to allow the equipment to accurately follow road irregularities and produce lines of uniform dimensions.
- b. A mechanical beader shall be used.

PROSECUTION AND PROGRESS Work on this contract shall commence within 30 days after the notice to proceed and be completed by September 1, 2025. ~~If work is not started within 30 days, the contract will be void and will be awarded to the next lowest bidder.~~

DAMAGE CLAIMS The City of Mt. Vernon will not be responsible for the settlement of any damage claims filed by motorist in the completion of this contract. All claims submitted to the City will be forwarded to the Contractor.

METHOD OF MEASUREMENT AND PAYMENT Pavement marking lines will be measured for payment per FOOT of painted pavement marking lines applied and accepted. ~~Letters and symbols shall conform to the sizes and dimensions specified in the Illinois Manual on Uniform Traffic Control Devices and Standard 780001-05 and will be measured for payment per SQ FT based on the total areas indicated in Table 1 of Section 780 of the Standard Specifications.~~ It will be the contractor's and City's representative's responsibility to reach an agreement on the final quantities of pavement markings applied.

DEDUCTIONS IN PAYMENT FOR NARROW PAVEMENT MARKING LINES The City may assess penalties for pavement marking lines measuring less than 4" in width. For pavement marking widths between 3 1/2" and less than 4" the amount of deduction for deficient width will be in direct proportion to the unit bid price for paint pavement marking line 4". For pavement lines less than 3 1/2" in width, the contractor will be required to restripe the pavement marking line before receiving payment.

BASIS OF PAYMENT PAINT PAVEMENT MARKING shall be paid for at the contract unit price per FOOT of the size & color specified. ~~PAINT PAVEMENT MARKING - LETTERS AND SYMBOLS shall be paid for at the contract unit price per SQ FT.~~
